Personal Profile

Creative Computing graduate with experience developing full-stack web and mobile applications using React, Next.js, TypeScript, Node.js, Express, PostgreSQL and MongoDB. Passionate about building user-focused software, solving real-world problems and continually expanding my technical knowledge through independent projects.

Technical Skills	
Languages	TypeScript, JavaScript, HTML, CSS, SQL
Frontend	React, Next.js, React Native, EJS, Responsive Web Design
Backend	Node.js, Express.js, REST APIs, JWT authentication
Databases	PostgreSQL, MongoDB, Mongoose
Tools	Git, GitHub, Expo, Render, Postman
Testing	Vitest, React Testing Library

Projects

Personal Portfolio (WIP) – [Live Demo](#) | [GitHub Repository](#)

- Built a responsive portfolio using Next.js and TypeScript, showcasing project case studies, reusable components and deployed on Vercel.

JobPilot

Job Application Tracker – [Live Demo](#) | [GitHub Repository](#)

- Built a full-stack job application tracker using React, TypeScript, Node.js and PostgreSQL.
- Implemented JWT authentication, CRUD functionality, advanced search/filtering and analytics dashboards.

- Designed reusable React components and integrated them with a RESTful API architecture.

GrazeGood

Sustainability Scanner Mobile App – [GitHub Repository](#)

- Developed a full-stack sustainability mobile application using React Native, Express.js, and MongoDB
 - Integrated barcode scanning and external APIs to analyse nutritional and environmental product data
- Implemented user authentication, premium memberships, and cloud-hosted backend services
 - Deployed and maintained a production backend hosted on Render

PlayVault

Game Library Platform – [Live Demo](#) | [GitHub Repository](#)

- Built a full-stack web application inspired by Letterboxd for tracking video games
 - Developed using Node.js, Express, EJS and MongoDB
 - Integrated IGDB API for game discovery
 - Implemented user accounts, libraries, reviews and filtering systems
- Designed a responsive user interface for browsing, reviewing and managing personal game collections

Education and Training

- **Creative Computing (Website Development)**
Bath Spa University | First Class Honours (1st) **2023 – 2026**
- **Level 3 Extended Diploma in Software and Game Development**
West Herts College - DDM **2019–2021**
- **GCSEs** **2018**
 - 9 GCSEs including Information Technology (A), English and Mathematics

Employment History

Card Factory:

Key Holder / Team Leader

February 2023 – Present

- Promoted to Team Leader after demonstrating leadership qualities
- Manage a team of 8+ colleagues, delegating and supporting daily store operations
- Train and onboard new team members
- Supported KPI performance to achieve a green end-of-year review result.
- Supported multiple stores across the business, including covering a flagship store (£1m+ annual turnover) during the Store Manager's absence
